Enviolyte Chemical Industries

Transforming the Future with Sustainable Solutions

Welcome to Enviolyte Chemical Industries, a pioneering force in the realm of chemical innovation, dedicated to fostering sustainability and environmental stewardship. With over a decade of unparalleled expertise, we have established ourselves as a trusted leader in the industry, driven by a passion for excellence and a commitment to delivering cutting-edge solutions that redefine the possibilities of chemical technology.

Founded in Doha, Qatar over a decade ago, Enviolyte has established itself as a key player in the manufacturing and distribution of marine, water treatment, industrial, and specialty chemicals across the Asia-Pacific region and globally.

With more than ten years of experience in the chemical industry and backed by a team of seasoned professionals, Enviolyte takes pride in consistently delivering high-quality marine chemicals that exceed client expectations.

At Enviolyte, we provide a comprehensive range of chemical solutions to address various needs, including tank cleaning, cargo hold maintenance, and water treatment for boilers and cooling systems. Our product portfolio also includes treatments for fuel oil, scale, rust, and corrosion prevention, meticulously designed to perform exceptionally well even in the most demanding scenarios and applications. Since our inception, Enviolyte has maintained ISO certification, in addition to securing NSF and esteemed IMO approvals for our tank cleaning chemicals.

About Us

At Enviolyte, we believe in harnessing the power of chemistry to address the world's most pressing challenges. We have evolved into a global entity, with a presence across diverse sectors including

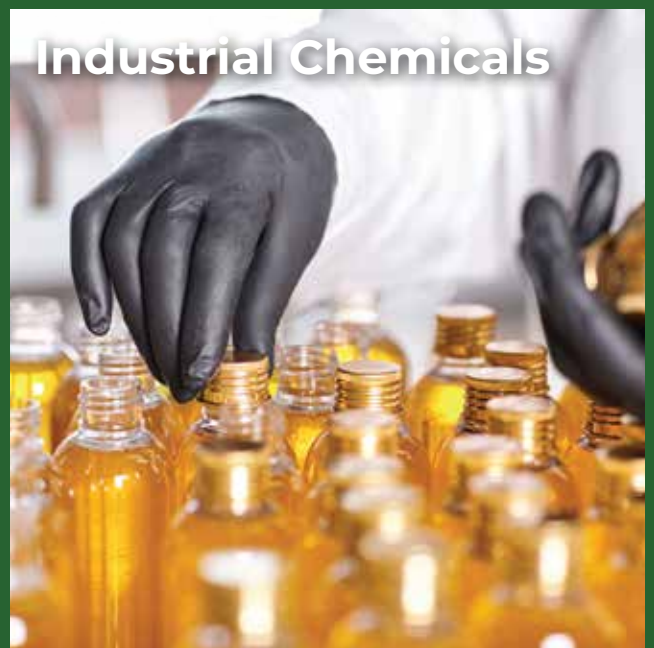

30+
years
Industrial Experience

Water Treatment Solutions

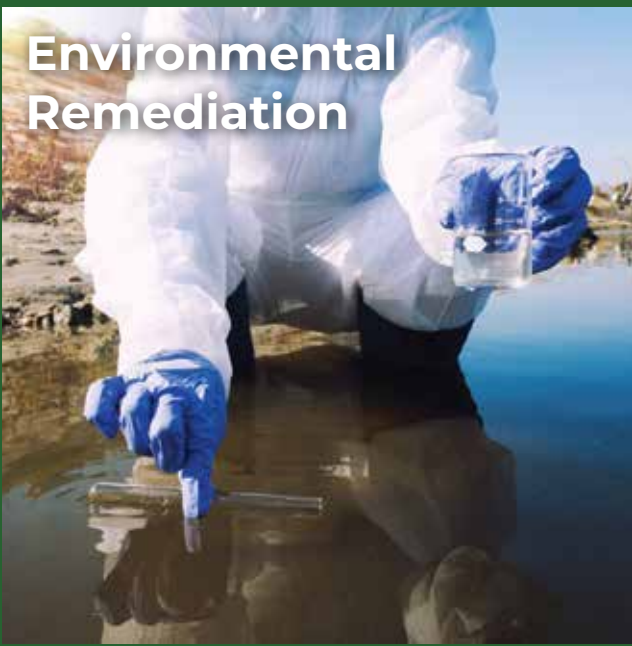

Our advanced water treatment technologies ensure the provision of clean, safe, and sustainable water resources for communities and industries alike.

Industrial Chemicals

From specialty chemicals to bulk commodities, our comprehensive range of industrial solutions caters to the evolving needs of various sectors, including petrochemicals, construction, and manufacturing.

Environmental Remediation

Through innovative remediation technologies, we are committed to restoring and preserving the natural environment, mitigating pollution, and promoting ecological balance.

Research & Development

Our state-of-the-art R&D facilities serve as hubs of innovation, driving continuous advancements in chemical engineering and fostering a culture of creativity and exploration.

Fueling the world's growth with advanced chemical solutions. ”

Our Vision

To be a global leader in chemical innovation, harnessing the power of chemistry to create sustainable solutions that enhance the quality of life and preserve the environment for future generations.

Our Mission

At Envirolyte Chemical Industries, our mission is to drive excellence in the chemical industry through pioneering sustainable technologies and high-quality products. We are dedicated to.

- Providing advanced water treatment solutions that ensure clean and safe water for all.
- Delivering innovative industrial chemicals that meet the evolving needs of diverse sectors.
- Leading the way in environmental remediation to restore and protect our natural resources.
- Fostering a culture of continuous innovation and research to develop cutting-edge chemical solutions.
- Upholding the highest standards of quality, safety, and environmental stewardship in all our operations.

Getting you started

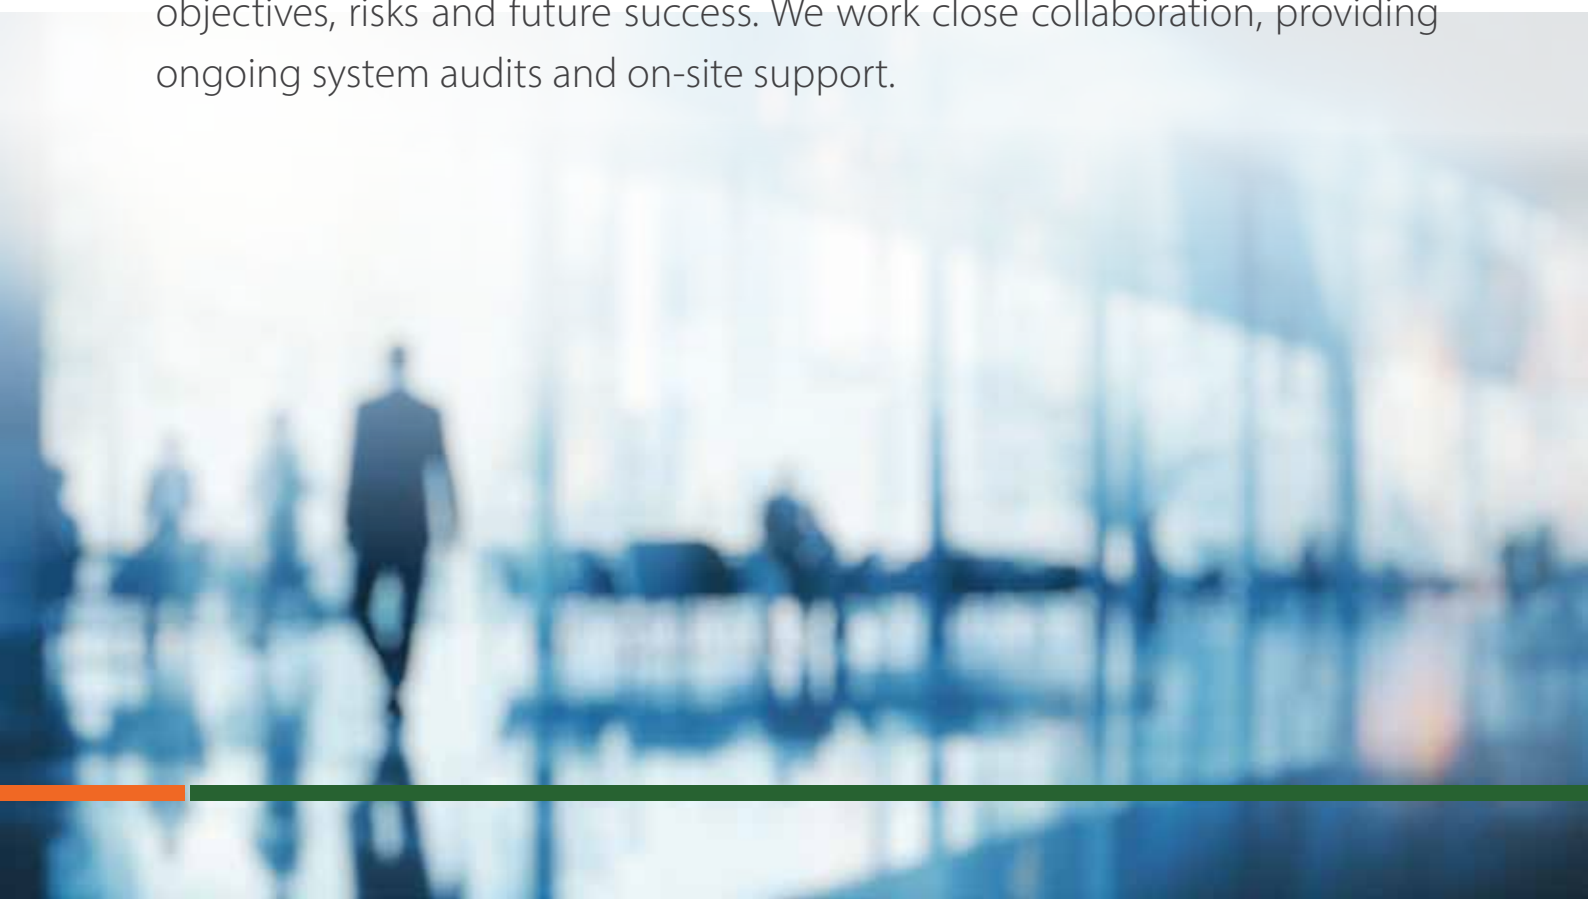

we start as we mean to go on a supportive and committed partner for life. We plan and build around individual needs and sharing process knowledge. Training employees and supporting operators get our customers up and running and ensure a smooth seamless ongoing service.

Keeping it running

to ensure our customers benefit from their continuous processes with minimal unexpected downtime, we provide fast support, efficient maintenance and top quality spare parts.

Together with you

commitment to our customers and their business means investing in their objectives, risks and future success. We work close collaboration, providing ongoing system audits and on-site support.

Our Products

Enviolyte Chemical Industries proudly offers a diverse portfolio of high quality products, meticulously designed to deliver unparalleled performance, reliability, and sustainability. Our product categories include,

- Water Treatment Solutions
- Advanced Oxidation Processes (AOPs)
- Electrochemical Water Disinfection Systems
- Membrane Filtration Technologies
- Industrial Chemicals
- Catalysts & Additives
- Solvents & Surfactants
- Specialty Polymers
- Environmental Remediation Technologies
- Soil Stabilizers & Amendments
- Contaminant Sequestration Agents
- Biological & Chemical Remediation Agents

Our Services

At Enviolyte, we go beyond mere product provision, offering a comprehensive suite of services tailored to meet the unique needs and challenges of our clients. Our services encompass,

Consultancy & Technical Support

Our team of seasoned experts provides invaluable insights and guidance, offering consultancy services and technical support to ensure optimal implementation and performance of our solutions.

Consultancy & Technical Support

Leveraging our extensive expertise in chemical engineering, we collaborate closely with clients to develop custom formulations and solutions tailored to their specific requirements.

Training & Capacity Building

Through specialized training programs and capacity-building initiatives, we empower clients to maximize the efficacy and efficiency of our products, fostering knowledge transfer and skill enhancement.

On-site Installation & Maintenance

Our dedicated team of technicians and engineers oversees the seamless installation, commissioning, and maintenance of our systems, ensuring minimal downtime and maximum operational efficiency.
